

Required Summer Work for AP U.S. History 2020-2021

Seffner Christian Academy

Welcome to AP U.S. History! In AP U.S. History, you will investigate significant events, individuals, developments, and processes in this great nation. If you are willing to put in the work, you will find that this class will be demanding, but extremely rewarding.

During the summer, memorize all 50 states and their capitals, the District of Columbia, and the 5 territories of the United States. You will also need to locate them on a map. In addition, you will need to know the location of the following major geographical landmarks:

1. Pacific Ocean
2. Atlantic Ocean
3. Gulf of Mexico
4. Rio Grande River
5. Mississippi River
6. Appalachian Mountains
7. Rocky Mountains

We will have a geography test the second week of school. A helpful online aid is <https://www.sporcle.com/type/classic/geography> for learning the states and capitals. If you have any questions you may e-mail me at hgray@scacrusaders.com.

Sincerely,

Mrs. Heather Gray
High School Social Sciences
